FORMER FANCY BRED, Latter Making Desperate Efforts to Win Coveted Prizes.

By Associated Press.
HORSES AND OWNERS
New York, Nov. 19.—Madison square
garden, resplendent in decorations of
orange and black was thrown open to-
day to the twenty-second annual ex-
hibition of the national horse show
association. About 1,700 horses, in-
cluding the thoroughbreds of the hunt
and saddle and the high steppers of
the coach and cart, are numbered
among the competitors for the blue
ribbon.
The show began at 9 o'clock with the
customary formalities. During the
first hour the fancy horses were ex-
ercised in the ring. The judging began
at 10:30 with a preliminary trial of
saddle horses, from which a number
were to be selected for competition
in class 73 on Tuesday. This was fol-
lowed by the judging of hunters and
jumpers, stallions, ponies in harness,
harness and saddlers, thoroughbred
saddle horses and stallions and ponies
under saddles and roadsters and road
rigs.
Twenty of the finest horses in the
show are entered for the most coveted
prize of the show, the Waldorf Astoria
cup. The contest was believed to be
between the entries of which Moore,
Miss Gula Morosini, Reginald Vander-
bilt and Alfred G. Vanderbilt. To re-
tain possession of the cup it must be
won three times and W. H. Moore has
already won it twice with Forest King,
which horse will be in the contest
again this year. In this contest, Miss
Morosini will show Glorious and Togo
and Alfred Vanderbilt will display
Youngster and Primrose. Chas. W.
Watson also is expected to show the
pick of his stable in this event.

AN ITALIAN BEE STARTS TROUBLE.

By Associated Press.
Naples, Nov. 19.—An anarchist made
a demonstration against the army here
today while the Duke of Aosta was
distributing prizes to soldiers who dis-
tinguished themselves in the relief
work during the eruption of Mount
Vesuvius in April last. The Duke who
is commander of the military district
and cousin of King Victor, was stand-
ing surrounded by the local military
authorities and the troops of the gar-
rison at a short distance from the
massed standards of the regiment
when a man named Nicola Fiore,
known to be a member of an anarchist
organization, threw a package of anti-
military newspapers at the regimental
standard and at the same time shout-
ed insults against the army in general.
He was immediately arrested.

GERMAN RELATIVES

Receive a Visit From the King and Queen of Denmark.

THEIR FIRST VISIT

Marked With Unusual Cere- mony On the Part of the Populace.

By Associated Press.
Berlin, Nov. 19.—King Frederick
and Queen Louise, of Denmark arrived
here today from Copenhagen, paying
their first official visit since their
accession to the throne. Their majes-
ties were welcomed at the railroad
station by Emperor William and Em-
press Augusta Victoria. The streets
through which the royal party passed
were guarded by the whole of the gar-
rison of Berlin, a special act of cour-
tesy. The visitors were welcomed at
the Randeberg gate the king replying
to the civic address with a speech of
over five minutes. The third carriage
of the royal procession contained the
Danish minister for foreign affairs,
Count Raben Lovetau and Countess
Levetau formerly Miss Moulton of
Boston who carried her right arm in a
sling, the bones of her hand having
been broken when she was thrown
from her horse at Copenhagen, Friday
last. The countess was especially in-
cluded in the emperor's invitation.
The Danish king and queen will leave
Berlin Tuesday night.

TERRIBLE TIME TO GET EDUCATED.

Breslau, Nov. 19.—One hundred
and sixty prosecutions resulting from
the Polish school strike are pending
in the courts of Posen, Lissau, Ost-
rowo, Bromberg, and Gensen. The
controversy has been more embittered
by authorizing the dismissal of
all Poles from the honorary school
boards. The school masters continue
to apply to the government's police.
No instance has been reported as se-
vere. Semi-official figures now give
the number of recalcitrants at 46,000.

Hanson, in Ante Mortem Statement Tells Story of His Life.

By Associated Press.
Chicago, Nov. 19.—Policeman Luke
Fitzpatrick is dead and Chas. Han-
son, an ex-convict, is dying in St.
Bernard's hospital as the result of a
fight which took place early today on
the station of the elevated road at
63rd and Madison avenue.
Hanson and a companion last
night entered a grocery store in
Hammond, Ind., kept by a man named
Hansgu, blew open the safe and
escaped with several hundred dollars
in money and valuable papers worth
a considerable sum. Officials of the
Hammond police force pursued them
out of town, but the robbers escaped
after exchanging several revolver
shots with the policemen.
Later the robbers boarded an elec-
tric car for Chicago and the con-
ductor who had heard of the rob-
bery, being suspicious of them, as
soon as the car reached Chicago, in-
formed officer Fitzpatrick who was
standing near the foot of the stair-
way leading up to the elevated sta-
tion. The robbers had already mount-
ed the stairs and Fitzpatrick and the
conductor followed them. Fitzpat-
rick ordered them to halt and they
at once opened fire on him. Fitz-
patrick was struck several times and
fell down the stairs. After reaching
the bottom, however, he raised him-
self on his elbow and emptied his re-
volver at Hanson who ran down the
stairs in an effort to escape. Hanson
fired several more shots at the officer,
and when Fitzpatrick was taken to
the hospital he was found to be suf-
fering from severe wounds. He died
in a short time. Policemen Birch
and Wilson who had heard the firing
between Hanson and Fitzpatrick hur-
ried up as Hanson was running away
and Birch shot Hanson through the
back, inflicting a fatal wound.
After being taken to the hospital
Hanson admitted that he had taken
part in the robbery of the grocery
store, and some of the papers and
money were found on him. He said
that he was born in Bloomington,
Ills., in 1872 and had served sen-
tences in the prisons at Ft. Madison,
Ia., Rusk, Texas, Nashville, Tenn.,
Columbus, Ohio and Michigan City,
Ind. For several years Hanson said
he was a member of a gang that ter-
rorized the people in the neighbor-
hood of Rusk, Texas. His last sen-
tence was Michigan City, and he was
released from there on August 30,
last. The companion of Hanson es-
caped by sliding down one of the
supports of the elevated road.

Kansas City, Nov. 19.—Guests to the
commercial club banquet to-night and
guests and delegates to the trans-
mississippi congress which will meet
here on Tuesday in annual convention
poured into Kansas City today from
all directions. They include a cabinet
office, several foreign diplomats,
United States senators, congressmen,
governors and mayors, governmental
department experts from Washington
together with representatives of
numerous organizations. Elhu Root,
who was expected to define the gov-
ernment stand on the Monroe Doc-
trine and South America relations, ar-
rived on an early train from Chicago
while David R. Francis, heading a
delegation of Missourians and escort-
ing Minister Children, Minister Pardo
of Peru, and Minister Cortes of Colum-
bia, with Minister of Columbia John
Barrett, with whom the foreigners left
Washington arrived from St. Louis.
The representatives from Brazil and
Chile came in about the same time that
E. H. Harriman, with a party of rail-
way officials, arrived on a special train
from Chicago. Mr. Harriman made
the run from New York in the fast
time of 31 hours and 19 minutes.
Others who came in were Dr. William
J. Schaffin and Daniel C. French, the
sculptors of New York. Senators and
congressmen on their way to Wash-
ington to attend the opening of the
national, began putting in an appear-
ance today.
Secretary Root, the foreign diplo-
mats and the other specially invited
guests of the Kansas City Commercial
club were tendered a reception during
the forenoon followed by a luncheon.

DEAD GIRL'S SIRE TESTIFIES FIRST.

By Associated Press.
Herkimer, N. Y., Nov. 19.—Frank
Brown, father of the girl Chester
Gillett is accused of having murder-
ed, gave the first testimony for the
prosecution today in Gillett's trial on
a charge of murder.
The court room was crowded.
Gillett watched the father closely as
he stated that he had once met the
accused in his daughter's room at
Cortland. He gave no other impor-
tant testimony.
Mrs. Ada Hawley testified that her
sister boarded there with her at Cor-
tland and that the prisoner had visit-
ed her there. Miss Wilcox, an oper-
ator in the factory operated by Gil-
lett's uncle, testified that Gillett said
he was going on a vacation to the
north woods last July and that he
was not sure whether he would be
back in a week, two weeks, a month
or six months.
Teresa Dillon, another employe of
the factory, said that Gillett was so
infatuated with Miss Brown that he
would not stay away from her table.
When warned by his Uncle, Gillett
defied the uncle.

MUCH FUSSINESS BUT NO ONE CHOSEN.

London, Nov. 19.—Rumor has been
busy with the names of a number of
diplomats as possible successors of Sir
Nortimer Durand as ambassador at
Washington principally men with
American connection or men who
have at different times been connected
with the embassy at Washington
among whom are Cecil Spring-Rice
who has but recently taken up his
duties as British minister at Tehran
and Gerard A. Lowther the British
minister at Tangier. Neither of
these, the Associated Press learns, is
likely to be appointed to the Washing-
ton post, as they both have special
work to perform in their present pos-
itions. Lord Curzon of Kedleston is
still mentioned in some quarters
despite the foreign office statement
that he had not been concerned.

DIVINE GUILTY OF TEACHING HERESY.

LIST OF FATALITIES

From Severe Storms Which Swept Across Dixie Land

NOW NUMBERS EIGHT.

Farmers and the Railroads Have Already Suffer- ed Great Loss.

By Associated Press.
Memphis, Nov. 19.—No other fatali-
ties have been added to the eight
lives, reported last night, as a result
of the storm Saturday night and Sun-
day which swept the greater portion
of west Tennessee, north and central
Mississippi, north Alabama and east-
ern Arkansas. Telegraphic communi-
cation is gradually being restored but
railroad traffic is greatly impaired and
in many instances, demoralized.
The rain continues to fall. Reports
from the western section of Tennessee
show that the railroads have suffered
greater damage than ever before. All
the roads are unable to operate trains
at all through Jackson, Tenn. Tracks
are washed out for long stretches,
bridges are down and in some places
the water is standing over the tracks
for miles, making it an utter impos-
sibility to operate trains. Farmers have
suffered great loss both in crops and
live stock. The damage done by the
wind and rain will amount well into
the hundreds of thousands of dollars.

FRANKLIN IS WICKED

County Containing the Ohio State Capitol Heads List With

THIRTY-FOUR GIRLS.

Probate Judge of Cuyahoga County Expresses An Opinion.

By Associated Press.
Columbus, Nov. 19.—Secretary H.
M. Shiner has received from the super-
intendent of the girls industrial
school a classified list of inmates
which shows that Franklin county
has more girls there than any other
county—34, to 25 for Lucas county;
24 for Cuyahoga and 23 for Hamilton.
The girls industrial school has been
until just now in ill repute with the
probate courts of many of the counties.
A probate judge in Cuyahoga county
recently said he might as well "send
a girl to hell as to send her to the
girls industrial school." That notion
does not seem to prevail there now for
Cuyahoga sent 19 of her 24 girls now
there within the last year.
Hamilton county uses the Cin-
cinnati house of refuge and that accounts
for the small number from that county.

A CLOSE CALL

For a Well Known Man
Near This City

Who was Saved by the
Heroism of His
Daughter.

AT ST. JOHN'S CHURCH

This Morning the Gnagi-
Johnson Wedding Vows
Were Taken.

The Bendure Funeral, a Nar-
row Escape and a Com-
ing Wedding.

At 7 o'clock this morning, Rev. Fr.
Rupert solemnized the wedding of Mr.
Jacob Gnagi and Miss Rose Johnson,
in the presence of a small party of
relatives.

On Wednesday, Charles Duggan, of
south Main street, the popular L. E. &
W. conductor, will be married to Miss
Anna O'Neill, at the home of the bride
in Wallaceburg, Ontario.

Their Father Dying.

Word has been received from Mrs.
Eliza Parrott, of south Broadway, who
went to American Falls, Idaho, three
weeks ago, to take care of her hus-
band, Dent C. Parrott, whom she learned
was in poor health. In the letter,
Mrs. Parrott states that her husband
is dying. He is the father of Jack,
and the Misses Bessie and Jessie Par-
rott, of this city.

Died in Portland.

Saturday evening, the remains of
Willis, the 1-year-old son of Mr. and
Mrs. Frank Bendure, of west Vine
street, was brought to this city from
Portland, Ind., where he passed away
early Saturday morning, and was taken
to the home of the grandparents, on
south Metcalf. The child was a victim
of pneumonia. Funeral announced
later.

A Narrow Escape.

The other day, C. D. Murray, who
lives in the country, but who is well
known in south Lima, had a narrow
escape from being gored to death by
a mad bull, and owes his life to the
bravery of his daughter, a lass about
17 years old.

He and his daughter had gone to the
barn lot to mow, when the bull, a very
large animal, and cross in proportion
to his size, made a rush for him. Mr.
Murray took refuge behind a post that
stood in the lot, but soon got tired of
dodging around the post and made a
break for a near-by fence, and when
within a few feet of the fence the bull
struck him, knocking him to the earth
and so close to the fence that the en-
raged animal could not strike him
with his feet. The daughter, Beulah,
rushed at the animal and began beat-
ing over the head with a milk pail, at
the same time screaming for help.
The animal passed in his attack for a
moment, meanwhile the daughter and
father escaped through a barbed-wire
fence.

Beyond a few bruises sustained by
Mr. Murray, and a badly torn apron
which the daughter wore, the damage
was slight, but the experience was
such as to induce Mr. Murray to tie
the animal to the rear end of a wagon
and bring him to a butcher in this
city.

Local Briefs.

The vinegar mill on south central

to treat his neighbors with.

FIRST LEAGUE GAME

Of the Six City Roller Polo
Season Will be Played
Tonight.

KENTON COMES HERE.

Springfield Meets Dayton
and Findlay Dated at
Fostoria.

The opening game of the season for
the new Western Ohio Polo League
will be played in the Majestic rink to-
night between the local team and Ken-
ton.

Manager F. E. Foor has been work-
ing like a Turk today completing the
final arrangements. In the east end
a tier of seats has been erected while
about forty feet of the big hall is cut
off the west end of the big hall is cut
enclosed in wire netting being placed in
the center of the rink.

The audience can form any part of
the hall, either seated or standing, as
they choose, view the game from start
to finish.

The league as a whole is now com-
plete unless further delays occurs at
Findlay regarding this, the Findlay
Republican reports Manager E. G. Bies-
singer as having everything ready there.

Lima's team will line up tonight as
follows:

Robinson, first; McKibben, second;
Vogelsgang, center; Kenworthy, half
back; Huster, goal-tender.

The referee will be Herman Wolf, of
Muncie, Indiana, who came over to-
day for the game.

Lima and Kenton will also play on
Wednesday night Dayton and Spring-
field and Findlay and Fostoria contest-
ing with each other until the announce-
ment of the formal schedule now being
arranged.

The Endless Procession.

A myriad of men are born. They ta-
bor and sweat and struggle for bread;
they squabble and quarrel and fight;
they scramble for little mean advantages
over each other, age creeps upon them;
infirmities follow; shame and humili-
ations bring down their pride and their
vanities; those they love are taken
from them, and the joy of life is turned
to aching grief. The burden of pain,
care, misery, grows heavier year by
year; at length ambition is dead, pride
is dead; vanity is dead; longing for re-
lease is in their place. It comes at
last—the only unpoisoned gift earth
ever had for them—and they vanish
from a world where they were of no
consequence; where they achieved noth-
ing; where they were a mistake and a
failure and a foolishness. There have
been left no sign that they have ex-
isted—a world which will lament them
a day and forget them forever. Then
another myriad takes their place, and
copies all they did, and goes along the
same profitless road, and vanishes as
they vanished—to make room for an-
other, and another, and a million other
myriads, to follow the same and path
through the same desert and accom-
plish what the first myriad and all the
myriads that came after it accomplished
—nothing.—From Mark Twain's Auto-
biography in North American Review.

Origin of the Balloon.

The word balloon means "a large
ball." To Montgolfier of Annonay,
France, the invention of the balloon is
credited. It is said that he was led to
turn his attention to balloon making
from the following incident: A French
laundress, wishing to dry a petticoat
quickly, placed it on a basket work
frame over a stove. To prevent the
heat from escaping by the opening at
the top of the petticoat she drew the
belt strings closely together and tied
them. Gradually the garment dried
and became lighter, and as the stove
continued to give out heat and rorify
the air concentrated under the basket
work frame the petticoat began to
move and finally rose in the air. This
so astonished the laundress that she
ran to her neighbors and asked them
to come and witness the strange sight.
Montgolfier was among those that
came in. The petticoat suspended in
midair suggested greater things to
him, and he returned home with
"something to think about." He at
once began studying works on differ-
ent kinds of atmosphere, and the in-
vention of the balloon was the result.

No Excuses Accepted.

French officials are said to be par-
ticularly strict in their discipline of
tourists. A lately returned traveler
tells several more or less apocryphal
stories to illustrate the state of affairs.
An American lost his footing, slipped
down an embankment and fell into a
small, shallow pond. As he scrambled,
dripping, up the embankment to the
footpath he was confronted by an
arm of the law.

"Your name? Your address?" de-
manded this uncompromising person,
notebook in hand.

"But I fell," began the astonished
American. "I only—"

The man waved his arm. "It is for-
bidden to bathe in this lake," he said
bruly. "I am not here to listen to
extenuating circumstances."

A Quotation.

A correspondent wrote to a newspa-
per to ask the author of this couplet:
How much the fool who has been sent to
Excell's tool who has been kept at
home!

He had barely written when he an-
swered his own query, having found
the source of the lines and how he had
misquoted them. They are from Cow-
per's "Progress of Error" and read:
How much a dunce that hath been sent
to room!
Excels a dunce that hath been kept at
home!

We are not sure but that, as is fre-
quently the case with misquotations,
the popular version is better than the

Brains of Great Men.

Brains of great men vary very much.
It is found that men of encyclopedic
mind have large and heavy brains—
Gladstone had to wear a very big hat—
and numerous convolutions. On the
other hand, men whose genius is con-
centrated upon one line of thought are
of small brain and, consequently have
small heads. Newton, Byron and
Cromwell were in this class.—Kansas
City Journal.

Latchkey as a Source of Trouble.

Ever since some mechanically inclin-
ed person, with an almost diabolical in-
stinct for making mischief, invented a
form of spring lock which can be opened
on the inside by a knob and on the
outside only by a key there has been
trouble. The latchkey from the first
has been a domestic storm center. It
has divided family circles and even
broken up homes.—London Telegraph.

The Best.

There is a legend, says an English
writer, to the effect that after Lord
Stanley came into the house of peers
a lady somewhat indelicately asked
Lord Brougham at a dinner party who
was the best speaker in the house of
lords and that Lord Brougham prompt-
ly and emphatically answered, "Lord
Stanley, madam, is the second best."

Hasty Conclusion.

Tommy paused a moment in the
work of demolition.

"This is angel cake, all right," he
said.

"How do you know?" asked Johnny.
"I've found a feather in it!"—Chicago

IN 1813

"Curse these British hounds. They
would have taken everything except
our souls had we not fought them
and beaten them, and now they want
our bodies on the sea to sail their
ships. Talk about the right of search,
impressing British seamen and all
that; they're stronger on the water
than we, and it's here they continue
to show their serpent's fangs. Oh, for
a Paul Jones to come down on this
ship and treat it as he treated the
Serapis!"

"I suppose it would have been more
sensible for me to go to work instead
of resisting. Then I wouldn't be in
this cubby hole, a man with a cutlass
to watch me. Methinks he's getting
sleepy. Drop your head again, old
fellow, and catch it spasmodically. A
few more nods and you'll not count
for much as a guard. But what if I
could leave this hole? I can't get out
of the ship. One, two, three, four, five,
six—six bells. I wish the fellow would
go to sleep. I'd just take a turn about
the ship to stretch my legs.

"Now for it. He doesn't stir. Good-
by, my hearty. I'm going to see what
one of his majesty's ships looks like at
3 in the morning. Everybody asleep.
That's a fine sniff of air even if it does
come through a porthole. What's in
here? A canvas bag on a bunk, with
a short tied to one end. Wonder when
they're going to toss him over. I wish
they'd toss me over instead. I'd rather
make a dinner for sharks than work
for British tyrants. Wonder if the
watch on deck are all awake. Reckon
they are. These Britishers are good at
discipline. No, I can't go up there.

"Suppose—suppose I could get tossed
overboard in place of this dead man.
Where would I go to? To the bottom,
of course. I couldn't get out of the bag,
and the short would sink me. I might
find a knife to take with me. But I
couldn't swim ashore. We must be off
the Massachusetts coast. Wonder if
their lifeboats are fitted with cork side
pieces. If I can get enough cork to
float me and a knife I'll try it. It's
still dark dusk. Hello, a knife!"

"Who's there?"

"That fellow nearly got me. If it
hadn't been for him I'd have been over
in the water in another second. But I
got the cork. I wish I could have dip-
ped into the boat. I might have se-
cured a cork jacket instead. Now, I'll
steal back and try to summon nerve to
get into the bag.

"There, my man, or, rather, my dead
man, you stay under that bunk while I
take your sleeping place. I'll have a
hard time relating this bag. All right;
I reckon that'll do, though they may
notice bad luck. Now comes the
worst of it, the waiting.

"Eight bells.

"One bell.

"Seven bells. I must have dropped
asleep. Strange that I could sleep in a
dead man's bag, but now I think of it,
I've not slept before for two days, not
since these rascals took me from the
Molly Boyd.

"They're coming. Here they are.
The leaving off of that shot came pre-
tly near betraying me. They've got it
tight enough this time. Never mind
the burial service. Oh, God, to listen to
one's own burial service! That's what
it is, my burial service. I'll never get
out of this alive. What a fool! I
could have submitted and lived.

"The Lord have mercy on my soul.
Will I never get this cord cut? Down,
down! What an awful down! If I
don't do it in another moment the wa-
ter above will hold me under. Besides,
I can't hold my breath so long. Ah!
Goodly, old sky; you may go to the
bottom. I'm going up.—Whew, that
was a long breath stop! Oh, blessed
air! Let me get rid of this bag and I'll
breathe easier. Thank heaven it isn't
tight.

"Odds fish! I didn't think the ship
was so near. I got under the water
just in time to miss being seen. It
wouldn't have mattered. They'd have
thought the shot had slipped off and
the dead had arisen.

"This is tiresome, and I'm getting
hungry. If I could only have come up
on a few herring in the galley before
leaving the ship. Let me see, judging
from the position of the sun it must
be an hour or two past meridian. Not
a ship yet sighted. I'm near the
coast and should at least see the sails
of fishers. What's that on the hori-
zon? It's a sail, sure enough.

"Yes, it's getting larger all the while.
It's coming straight for me.
A ship ahoy!"

"They hear me. They're luffing to
the wind. That's the pleasantest
sound—that boat coming down from
her davits—I've heard in a long while.
I'm in luck. This way, you lubbers.
What are you steering off two or three
points for? Can't see me for the
rollers? Well, I am bobbing up and
down a good deal, but I've got used to
it. There you are. Now keep that
course till you reach me.

"Who am I? Never you mind; you
get me aboard your ship. Did you
bring any rum? Good. Here's to the
stars and stripes! Don't they look fine
after being imprisoned under that
British rag? Anything to eat? No.
Well, give me, hearty. I can think,
but I can't talk—not till I've filled my
bread basket. I've done thinking
enough for a dozen years. All right;
you'll have to hold me aboard.

"Well, now I've eaten and drunk
I'll tell you that I'm an American sea-
man impressed by Britishers and es-
caped."

FURIES IN THE ARENA.

The Wrestling Matches Between Wo-
men in Japan.

Describing a wrestling match be-
tween women in Japan, a writer says:
"The wrestlers arranged themselves in
two sides, each led by a champion. They
sat cross legged around the platform
in the dirt, all but the two chosen to
begin, who advanced into the center
with the umpire. They squatted upon
their feet and bowed to each other
slowly and solemnly. Politeness thus
being fulfilled, they stood up again and
bent over opposite one another like
two gamecocks, waiting intently for
a chance to seize an advantage. Dur-
ing the preliminaries the audience was
tense with expectation. Then suddenly
the women sprang, issuing at each
other furiously and grasping their
teeth, at first by simulating ferocity to
spur themselves up to greater excite-
ment, but, after a few clutches, in
despair, fainting earnest, the umpire
meanwhile buzzing close to them as
they swayed around the narrow ring.

"Any and all holds seemed fair means
to the end of pushing a contestant over
the edge." Sometimes with a clean
throw one woman landed her opponent,
sprawling, in the midst of her friends.
This was the signal for the umpire to
begin, "Hitotsu, futatsu, misu, yotsu,
itsutsu" (one, two, three, four, five), in
a series of irregular and disconnected
squeaks, and before he ceased count-
ing another wrestler from the losing
side jumped up to meet the champion,
who stood panting, hissing and spitting
like a boiling kettle in the center of
the arena.

"This time there were no prelimi-
naries. A wild rush, and like two fur-
ies or two beasts the women were
struggling again. Some affected quick
clutches, some locked their adversaries
in their arms and stood stock still for
a full five minutes. Some picked up
their opponents almost at once and
threw them bodily over the ring, while
others rolled over with them."—Chicago

AMERICAN ART.

The Way Men of Means May Promote
Its Advancement.

It is an encouraging theory that all
important art epochs have been pre-
ceded by epochs of great wealth, and
it may well be that the present multi-
plication of large fortunes will be the
foundation of a more ideal condition
of society, affording, as these fortunes
do, the support of extensive artistic
undertakings, as did those of Genoa
and Venice. And while it would be
laudable folly to fill our museums exclu-
sively with work by Americans, it is
more and more to be expected that our
artists will profit by the showing they
make in such collections as the com-
parative exhibition of a few years ago,
in which they held their own with
foreign masters of the same departments.
The first way, therefore, to help
American art is to buy worthy pictures
by American artists. Our rich men—
particularly our new recruits in this
class—should bear in mind that an ex-
hibition of art, let us say, the Society of
American Artists, has as high a stand-
ard of admittance as the Paris Salon
and is likely to contain less trash, and
that, purely as a matter of investment,
to urge no higher motive, it pays to
buy the best American work.

Another way for those who wish by
their wealth to add to the pleasure of
their countrymen is to give or bequeath
a portion of it to a museum for the en-
couragement of native art, and to be
of the highest efficiency such a bene-
faction should be without condition. It
is said that in Boston it is not respecta-
ble to die without making a bequest to
Harvard university or the Museum of
Art. Certainly that city has an envia-
ble reputation for the unceasing, ever
vigilant civic pride and solidarity that
made Emerson exclaim of it, "Thou
daring town of ours!"—Century.

The Jews of Bombay.

In no city in the world is there a

in Bombay. Even were the gharry-

the principle of allowing Europeans to

affront to the civilized policy of the
city. But the Bombay gharrywalla is
notoriously the most stupid individual

fication of cruelty to his horse and of
disregard of the public safety.—Bom-

RHEUMATISM

AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are accumulating in the system for years. Poor digestion, weak kidneys, torpid liver, and a general inactive condition leaves the refuse and waste matter, which should be sour and form uric acid, which is absorbed into the blood. It is in this acid-charged condition, it deposits the poisons particles with which it is loaded in the muscles, nerves, joints. Then Rheumatism gets possession of the system, and miserably by its pains, aches and discomforts. The changing er, exposure to cold and dampness, etc., always increase the so severe does the pain become that quick relief must be at liniment or plaster is often helpful, but it should be re- at relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and S. AKERMAN IS MATCHED

To Wrestle Gehring, the Cleveland Man Here on November 28.

Concessions as to Weight Had to be Made By the Local Man.

The greatest aggregation of wrest- lers that ever congregated in Lima will be at the wrestling entertainment to be held at the Auditorium this even- ing. The leading attraction will be Frank Gotch, heavyweight champion of America, who will undertake to throw Alex Swanson, ex-champion of the welterweight class, and Fred Bartl, the fighting Canadian and cham- pion middle weight of Canada, each one fall within an hour. In addition to these three there will be, among the spectators, Al Akerman, the present welterweight champion of the world, Chicago Sandow, who claims the cham- pionship of the west in the 155 pound class, and Johnny Billetter, of Toledo, champion bantamweight wrestler.

Manager Finley, who promoted the match which is to be pulled off tonight, stated this afternoon, that the ad- vance sale of reserved seats was quite heavy and that a big crowd was as- sured.

AKERMAN MATCHED

Will Meet Gehring, the Cleveland Wrestler, Here on Nov. 28.

After several weeks of parleying over terms, during which time Al Akerman has had fifty dollars of forfeit money uncovered in the office of the Cleveland Leader, concessions have been made by the local man on the question of weight and the amount of side bet, and an agreement has been made for a match between Akerman and the Cleveland wrestler Gehring, who is- sued a challenge to the Lima man through the Cleveland Leader several weeks ago. The contest will be held in this city on Wednesday evening, November 28.

MAN LOSES MIND AS STORK APPEARS.

Portland, Me., Nov. 19.—A case that puzzles not only his family and townsmen but the physician is that of Wil- liam D. Trescarten of Limestone, Aroostook county, who acts strange- ly and then disappears from his home either just before or every time his wife gives birth to a child.

The Portland police were asked to look for Trescarten, who left his home a few days ago just previous to the birth of his fourth child.

Grand Chancellor W. B. Hall of the Knights of Pythias, of which organiza- tion Trescarten is a prominent mem- ber, has notified the members all over New England to be on the lookout of their brother. Although under ordi- nary circumstances a clear headed, well balanced business man, Trescar- ten seems to change his personality entirely as soon as or just before the stork comes.

He becomes nervous, irritable, and finally leaves his business to take care of itself and escapes from home.

We owe the young people of this country the best example and teach- ing that we chance to know. That's good advice.—Take Hollister's Rocky Mountain Tea. Tea or tablets 35 cents. H. F. Vortkamp.

WOMAN ELUDES BOLD TAX ROBBER.

Washington, Pa., Nov. 19.—Blood- hounds from West Virginia are track- ing a robber who early this morning assaulted Mrs. Charles Cole, a Wayne township tax collector's wife, in her home, with the intention of securing \$2,500 in taxes collected in a day.

Mrs. Cole saved the township mon- ey and escaped from the burglar by a clever ruse. A masked man knocked at the door of the resi- dence at 7 o'clock and when Mrs. Cole, who was alone with her three months old baby, attempted to shut the door the robber felled her to the floor. He demanded the taxes which he said, he knew had been collected yesterday, threatening Mrs. Cole with death if she refused to give up the money.

Although seriously hurt by the ruffian's blows, Mrs. Cole informed him that the money was in a bureau drawer upstairs.

The burglar started up the stairs when Mrs. Cole seized the money, which was in a satchel in a closet on the first floor and, snatching her sleeping baby from its cradle, fled toward the home of Daniel King, a mile away. The robber gave chase, but failed to overtake the woman.

Sheriff Koebert was immediately notified, secured blood hounds from Mountsville, W. Va., and took up the robber's trail.

Postmaster Robbed.

G. W. Pouts, postmaster at River- ton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Elec- tric Bitters; which cured me and have kept me well for eleven years." SQUAW MEN LOSE BIG LAND CASES.

Washington, D. C., Nov. 19.—The supreme court of the United States affirmed the decision of the Court of Claims in the case of Daniel Red- bird, the Cherokee nation, and others vs. the United States, known as the "White man's case."

The case involved the long pend- ing claims of between 2,000 and 3,000 white persons to participate in the distribution of the land and funds of Cherokee Indians because of the mar- riage of white men to members of the tribe. The decision was favor- able to the Indians.

The Indians strenuously resisted the claim, contending that they had never by law recognized the right of property on account of intermarriage. In passing on the case decided the court of claims held that the tribal lands are not communal lands, but that whites who acquired citizenship by marriage prior to 1875 have equal interests as Indians.

In the cases of marriages into the tribe since that time it was held that no right of property had been ac- quired except by those who had paid into the common fund the sum of \$500. The court also held that white husbands of Cherokee women who have abandoned their wives have forfeited all rights as Cherokee citi- zens, including that of participating in the sales of Cherokee lands.

HAS TO DO IT.

"You must believe in special provi- dences," gasped the man in the back seat of the new \$10,000 automobile, as the machine fairly flew along the bou- levard.

"I do," chuckled the chauffeur. "Don't you see how everything 'turns out' for the best?"—Chicago Tribune.

SEEING BENEATH THE SURFACE.

"But can't you explain why the strikers refrained from doing you any injury?" asked the reporter.

"At the last moment," replied the strike breaker, as he glanced furtively around, "they discovered that I was wearing a union suit."—Appleton's Magazine.

LONG WAIT.

"What was the trouble with that customer?" asked the florist.

"He wanted to know something about that small century plant," re- plied the assistant.

"That of it?"

"Well, he wanted to know if it would bloom when it was a hundred years old. I said it would. Then he asked how old it was, and I told him it was 2 years old."

"Well?"

"He said he guessed he wouldn't wait to see it bloom."—Judge.

SAD RESULT.

Mrs. Highmuss—"Your automobile ran over a baby wagon? Horrors! What happened?"

Mrs. Shokfer—"Just what always happens whenever I do that. Broke the bottle and cut the tire."—Chicago Tribune.

Sunshine to Sufferers

The secret of good nature is good health. Poison is the enemy of good health and pain is the ally of poison. Rheumatic poisoning is the result of an excess of Uric Acid in the blood. This excess is introduced in food and drink. When the blood becomes glutted with Uric Acid poison nature rebels and in her endeavor to drive it out the poison is forced into the joints or the muscles—anywhere. The dull, gnawing ache and the sharp agonizing pain accompany Rheumatism in its various forms. Twisted limbs and ceaseless suffering is the penalty of those who do not treat their Rheumatism with the right remedy. For over twenty- three years

Ath-lo-pho-ros

has been bringing sunshine into the lives of hopeless Rheumatic cripples. It quickly stops the pain and reduces the swelling; and eventually clears the system of every particle of Rheumatic poison. Athlophoros has cured cases of Rheumatism that were considered quite hopeless. Every druggist in this town sells and recommends it for

WEATHER FORECAST.

Washington, Nov. 19.—For Ohio:
Local showers and colder to-night, Tues-

portion, colder in east portion.

A New York correspondent tells
us that white hair is quite the rage
in society. This means, not that men
and women are getting gray younger,
but that they are taking less pains to
conceal the gray. They seem to have
learned that Nature's way is better
than the hair dresser's.

Of all the women who were legis-
lative candidates in Colorado this fall
not a single one was elected. It is
given out as a reason that the women
voted almost unanimously against
those of their sex who aspired to
statesmanship. In the abstract the
women of Colorado are strong
for woman suffrage, but when it comes
to the practical application of their
much cherished prerogative they natu-
rally and gracefully lean toward the
men folks.

Governor Beckham, of Kentucky, has
had a remarkable political career. He
was nominated to the legislature the
day he was twenty-one and was speak-
er of the house at twenty-eight. He
was elected lieutenant-governor at
twenty-nine and became governor
through the death of Goebel the same
year. After seven years in that office,
he is now to go to the United States
senate which he will enter at the age
of thirty-seven.

The Cincinnati sub-treasury has re-
ceived notice of a new counterfeit two-
dollar bill which has appeared in sev-
eral of the big cities and has fooled
some of the banks and business
houses. It purports to be a silver cer-
tificate with a portrait of Washington
and the signature of J. W. Lyons as
registrar of the United States. All
copies of the bill so far falling into
the hands of the officials bear the num-
ber 93,525,376. The bills are made of
two pieces of paper and are said to be
poorly printed and to have a washed-
out appearance.

The life story of Mr. David Barr,
the newly elected president of the
Methodist Local Preachers' Mutual
Aid association (England), reads like
a romance. He left home at twelve
to earn his living as a baker's boy.
He began his day's work at 3 a. m.,
at 7 was singing, "Hot cakes and
roll!" in the streets at Coventry, and
finished his day's work at 9 a. m. He
was afterwards in turn a shoemaker,
a railway porter, a hydro secretary, clerk,
and collector in a warehouse, and sub-
sequently, at the age of twenty-five
opened a house and land agent's busi-
ness, which eventually brought him to
his present position. Although seventy-
five years of age, Mr. Barr is strong
and vigorous, and frequently takes
long journeys to conduct services in
aid of the association of which he is
now head.

Greece is threatened with an old
strike. At a public meeting the phy-
sicians and druggists of Athens de-
clared that their professions would
soon be reduced to starvation. Many
physicians of the city are actually in
crisis because of the ever increasing
charges where patients receive free
treatment. The disciples of Escula-
pius intend, therefore, to strike, un-
less the government prevents the fur-
ther establishment of clinics and per-
mits them to increase their fees from
two drachmas to three drachmas (a
drachma is about 15 cents). Although
the motion to this effect was combat-
ed by several physicians as unworthy
of the medical profession, it was finally
carried by a great majority, and the
strike will probably prove an effect-
ful one.

His heated brow with no doubt turn-
ing to Practical Experience down at
Yuma and apologize for a hasty con-
clusion. After a tremendous struggle,
involving the expenditure of more than
a million dollars, besides responsi-
bilities for millions more in damages,
the engineers of an Arizona irrigating
company have succeeded in persuading
the lower Colorado river to follow its
old channel, and to refrain from
drowning out a portion of Southern
California which has the peculiarity of
being situated below the sea level.
The eastern engineers who made the
fatal short-cut which precipitated an
unprecedented flood were warned by
old-timers, with practical knowledge,
that such an open crevasse was ex-
ceedingly dangerous, but they were
laughed at, and the engineers have
not laughed since.

This river, which is ironbound by
granite cliffs a mile for part of its
course, to relapse from a torrent into
an oozy ditch in its lower course,
meandering uncertainly along a ridge
of alluvial deposit, can be made use-
ful in reclaiming from aridity a scope
of land as large as a dozen Ohio coun-
ties, every foot of which can be made
to yield tremendous crops under ir-
rigation. It was too great haste to re-
alize on this rich prospect which
caused the recent Salton trouble, and
absorbed the probable profits for some
time to come.—Col Dispatch.

The employment of a San Fran-
cisco spell-binder to defend Harry K.
Thaw for a fee of \$100,000 is calcu-
lated to do that young man's cause as
much harm as the lawyer can possibly
do it good. The very fact that so
unusual and excessive a sum should
be plunked down to one attorney for
his services prejudices the case. It
somehow appeals as a vulgar flaunting
of wealth in the face of justice and
an arrogant assumption that no crime is
so heinous that it cannot be condoned
by the expenditure of money. Every
juror who sits in judgment at that
trial will necessarily feel that the pub-
lic is likewise sitting in judgment on
him, wondering whether he will be
over-awed or debauched by the mil-
lions of the defendant's family. It is
a grave question whether the bringing
across the continent of an impassioned
oral or to argue Thaw's case will
not prove a serious tactical error on
the part of the defense. Surely there
are excellent lawyers in New York
who could present the ablest possible
defense without such a flourish of
trumpets and such a jingling of gold
pieces as that attendant in the employ-
ment of the wild-eyed Delphin Del-
mas, celebrated as the liberator of
men who deserved to be hanged.

THE MORAL RIGHT OF IT.

Congressman Ernest N. Pollard, who
represents the First Nebraska district,
has just done an unprecedented thing.
He has turned back into the national
treasury \$1865 salary to which he is
legally entitled, though he did not
earn it by any actual service. March
4, 1905, Elmer J. Burkett, who was
representing the district, resigned to
enter upon his duties as senator. Later
Mr. Pollard was elected to the vacancy
taking his seat in December. Under
the law and by all precedent he was
entitled to the salary of the position
during the interval, and he drew the
money. But in the campaign for re-
election, some of his opponents raised
the question of his moral right to the
money and apparently convinced him
that moral right did not exist. Mr.
Pollard won the election by an in-
creased plurality, and his first act
thereafter was to turn the questionable
salary back into the treasury.

A refusal to accept the money in the
first place would have been, it is
true, more impressive. But it is some-
thing that the money was returned,
though his right to it had been con-
firmed by a large majority vote of the
electors of the district. Most men,
under the same circumstances, would
undoubtedly have considered themselves
fully vindicated and would have re-
tained the money. Not so with Mr.
Pollard. He returned it, thus showing
that he has quite as delicate a sense
of honor as his critics and leaving
them to prove that it was their sense
of honor, and not their scent of vic-
tory, that caused them to raise the
question at all.

But why should not the moral right,
as well as the legal right, be a guide
to action in every such case? If it is
a question of money, why should the
decision be always in favor of the in-
dividual and against the government?

FORAKER WANTS TO BE PRESIDENT.

It now becomes apparent why Sena-
tor Foraker took such an interest in
the politics this year, a thing which
he has absolutely refused to do at a
time when he was not a candidate for
election to the United States sena-
ture. Efforts have been made to draw
out the old fox and every time he
has refused to come forth, but this

year with no invitation, excepting
from Senator Dick he entered the
fight early in the campaign and re-
mained until the last day to set his
forces working for the nomination for
president in 1908. On the day follow-
ing the election the announcement
was made that he would seek a full
delegation from Ohio to the national
convention.

It will be remembered that there
was talk of making the endorsement of
Foraker at the Dayton convention, but
such action was prevented by Foraker
himself, who probably thought it best
to see how the dose which was dished
up at that convention would lay on the
sides of the republicans of Ohio. It
was found to find a secure resting
place, with a majority of about 75,000
to hold it down and Foraker has con-
cluded that it will be safe for him to
come out of hiding and make known
his desires and intentions.

There is scarcely a doubt but that
the desired delegation will be de-
livered to him all right, if Dick can do
it. This may have been the price was
to be paid by Dick for assistance in
getting out of the right place in which
the junior senator found himself at
the beginning of the fight which has
just ended. There may be some con-
test between Taft and Foraker as to
who shall have the Ohio delegation
but with the good work which has
been done by Foraker there is every
probability that the goods will be de-
livered to him when the time comes
and that, so far as Ohio is concerned,
Taft will be permitted to retire from
public life and brood over his mistake.

preme court bench when he was given

GREEN MEETS GIRL

And Later, Complaints of Be-
ing Robbed of Twenty-
Seven Dollars.

A HEARING WAS HELD

And the Woman Was Dis-
charged and Ordered to
Leave the City.

A big crowd was attracted around
the police station Saturday night
by the shrill screams of a woman
who had just been taken into cus-
tody and who became hysterical when
confronted by prison bars. She gave
the name as Dena Whetsler, formerly
of Knox, Ind., and was arrested on
complaint of a former consort in the
person of James Alexander, a Greek
who came here recently from Chi-
cago. The pair had been occupying
a room in an east High street
residence and had represented them-
selves to be man and wife until the
Greek was robbed of \$27 and ac-
cused the woman of having taken it.
The case was tried before Mayor
Robb this morning and while there
was no evidence to convict the wom-
an of the charge of larceny, he warn-
ed both prisoners that they had been
guilty of crime and that Lima could
hereafter get along very well with-
out them. The Greek had been held
since Saturday night as a witness.

Cash Cunningham, a teamster,
charged with unlawfully having pos-
session of a gold watch belonging to
Miss Anna Jackson, pleaded not
guilty and the case was set for hear-
ing.

AWFUL AGONY.

that time I was indifferent and didn't
care whether I was saved or not. It
must have been at least 25 minutes
from the time the Jeanie struck us
until the boat were gotten out. There
were 26 of the 79 of our people on
the steamship Jeanie. The rest were
drowned. There was no sign of my lit-
tle steamer. She was gone completely
and before we left there was not even
a ripple on the surface to mark the
spot where the terrible tragedy had
occurred.

"I don't think the vessel was very
badly damaged by the collision. It was
the heeling over on her port beam that
caused her loss. She filled with water
as soon as she went over. As to
the cause of the accident, I cannot
say. I was not on deck and do not
know how it happened. I heard my
mate signal either one or two whistles,
I am not sure which. I also heard him
ring a stop bell. I can not understand
myself how it could have happened.
The night was almost as clear as day
and the sea was smooth. This is the
first accident that has happened on any
ship of mine during thirteen years I
have been running."

The Jeanie, the government launch
Scout and several tugs have gone to
the scene of the wreck to search for
bodies.

TESTED AND PROVEN.

There is a Heap of Solace in Being
Able to Depend Upon a Well
Earned Reputation.

For months Lima readers have
seen the constant expression of praise
for Doan's Kidney Pills, and read
about the good work they have done
in this locality. Not another remedy
ever produced such convincing proof
of merit.

Mrs. M. M. Meyers, of 718 west
Spring street, Lima, O., says: "I
just as ardently endorse Doan's Kid-
ney Pills today as I did six years ago.
I had then been relieved of kidney
trouble and the most distressing
headache which clung to me for days
at a time. I have often said since
then that Doan's Kidney Pills were
of inestimable value to me, if only
they did no more than that. They re-
moved the lameness and soreness
from my back and corrected a slug-
gish condition of the kidneys and so
toned up my system that I could en-
joy my rest and food better than for
years before. Doan's Kidney Pills
were procured at Melville's drug store
and as I have said before, I would
not be without them in the house."

ED. MORIARITY

Has Claimed a Charming
Lady For His Bride.

Edward Moriarity, one of the city's
efficient engineers at the water works
plant, and Miss Julia Tegenkamp, of
this city, were quietly married last
Tuesday evening at St. John's parish by
the Rev. F. G. Rupert. The young
couple endeavored to keep the affair
quiet, but rumor will out and so it is
with this case. Ed's sudden absence
from his gentlemen friends aroused
their suspicions and a quiet investiga-
tion brought to light the facts stated
above and here is hoping they will
live long and prosper. They will for
the present make their home with the
groom's mother, Mrs. Kate Moriarity,

Ideal Corset Creation.

THE TRIUMPH OF SCIENCE, THE suc-
CESS OF YEARS OF EXPERIENCE, HAS FIN-
ALLY BEEN REACHED IN THE REDFERN
CORSET, HERE ILLUSTRATED.

In this model every effort has
been made not to provide the
best for a predetermined price,
but to produce the FINEST
MADE AND BEST DESIGNED
CORSET for a well developed
figure, the price the least consid-
eration. The result is a corset
that is the GREATEST ARTIS-
TIC CREATION OF THE AGE.

This model reduces the hips
and creates a long tapering waist
line so necessary as an effective
foundation for the ultra tailored
gowns. Above the waist this
corset is cut long, but very
roomy, forming a straight line at the top and boned
at the sides of the bust with bias sections of whale-
bone, thus holding the bust forward, an almost uni-
versal need with all full figures.

Note the marked small waist, yet the absolute reduction of the
abdomen. This feature has never before been scientifically attained.
The corset in back from the waist line up is high and full at the top,
thus preventing any possible suggestion on the top ridge of the cor-
set showing through the dress. Made of handsome brocaded silk
fabric in white, pink and blue, finished with soft design of ribbon
and lace. Heavy French garter attachment. Price \$15.00.
Same model in white coutil or batiste, \$7.50.

THE VAN WERT PRESS

However, Assumes to Have a "Hunch" That Lima Is Hiring Singers.

Local Society Has Every Reason to be Proud of Its Record.

"The Elsteddoff to be held at Marion, Ind., is the coming event in musical circles. It will be participated in by the singers of Van Wert county, known as the Van Wert-Venedocia chorus and one of their rivals will be the Lima chorus. The latter has met successive defeats in similar contests by the local singers. It is reported here that for this reason, it is a matter of principle at Lima to outclass Van Wert-Venedocia in the next contest and not only the singers but the citizens have joined in making strenuous preparations for the meeting. The singers are entering into the practice meetings with an enthusiasm never before attempted or approached in the town. The citizens are contributing money for assistance and this fund is not to be expended for buns, but presumably is to hire expert help. Van Wert-Venedocia does not need money for expert help. The combination has the talent at home, but too much confidence in a series of triumphs may be their undoing. All that is needed to make a victory sure is practice, and that the directors declare must be forthcoming. A little enthusiasm before is better, in practical results, than enthusiasm after the contest."

The above clipping from the Van Wert Bulletin, would indicate that Van Wert and Venedocia are very much exercised over the coming contest at Marion. The Van Wert and Venedocia chorus combined is a very creditable singing society, especially noted for the excellent voices which constitute their male chorus. When they add to this male chorus the fine ladies voices of Van Wert and Venedocia they have an excellent body of singers. However, the management of the Van Wert-Venedocia chorus is not content with this, but employs singers from Columbus, Cincinnati, Ada, Delphos and other points wherever they can find good vocalists, and by expending large sums of money they have been enabled to defeat the Lima Choral Society on two occasions and naturally feel very much puffed up by reason of it. When they have attained a record such as the local society has then they may boast. The Lima society has been in twenty-three contests and have been victorious on either first or second prize in twenty-one out of the twenty-three, and with such a society it is no wonder that Lima citizens express a keen desire to see the Lima party victorious, and if victory perches upon Lima's banner, it will be without the help of a singer employed for the occasion. The friendly rivalry existing between these two societies is shown by the above clipping and adds to the zest of the contest and to the excellence of the work that will be done at Marion.

A CIRCULAR LETTER

Is Issued to Shareholders of the Standard Oil Company.

BUSINESS EXPANSION

The Letter Says, Is Legitimate and Normal, and Within the Law.

The Standard Oil company has issued to its shareholders the following circular letter defining its attitude as to the present litigation in progress in St. Louis:

25 Broadway.
New York, November 15, 1906.

To the Shareholders of the Standard Oil Company:

Regarding the suit this day commenced in the United States court at St. Louis, Missouri, in which it is sought to prevent the Standard Oil company (of New Jersey) from holding any stocks of other companies, your directors are entirely convinced that the company's position is unsatisfactory from both a legal and a moral standpoint. We are confident that in the proceedings which will follow, the company will successfully maintain its position upon the merits and vindicate the public and the law.

While your directors feel that there is no adequate reason for such a suit, either in the organization or the conduct of the business, yet, under the circumstances, it is perhaps better for your interests and the business interests of the country that the controversy should be removed to the judicial atmosphere of the courts—in whose integrity and wisdom every citizen should have the fullest confidence—where mere allegations must give way to legal proof.

The present organization was formed after an exhaustive consideration of the legal and business problems involved. It has existed unchallenged for many years. Everything relating to it has been a matter of public report, and at every step the utmost care has been observed to conduct the business honestly and fairly, and in accordance with not only the spirit but the technical requirements of the law.

The legal organization of your company is of essentially the same nature and character as that of the other important industrial interests of the country, and the continuous growth and expansion of its business has been legitimate and normal. It is not to be lightly assumed that there is to be a reversal of the wheels of progress or a destruction of the foundations of the great industrial business of the country.

You may be assured that in this litigation, as in all matters affecting the company, your directors will see that the proper steps are taken to protect your interests.

By order of the Board of Directors,
C. M. PRATT, Secretary.

AFTER THE FOG

By JAMES BAXTER

Daisy looked anxiously up and down the shore. It would be entirely useless to have to wait for her to row across the lake, but if she wanted to catch that 6:45 train in the morning she must get overboard.

Ted, with an air of preoccupation too exaggerated to be sincere, tied and untied the painter of the little skiff from which he had just landed. He hoped that Daisy would go away. It was not pleasant to meet the young woman who only that afternoon had handed him back his ring and had declared that he was too much of a first error to make a good husband, and yet—

But instead of going away Daisy approached him. Three times she called his name, but it was not until the third repetition of her "Mr. Cosgrove" that he roused his head.

"Where you speaking to me?" he asked in mild surprise.

"No," said Daisy acidly. "I was yelling at you. You appear to be deaf to conversational remarks."

"It was the 'Mr. Cosgrove,'" he explained lamely. "You see every one calls me Ted, and I've sort of grown out of the habit of answering to the 'Mister.'"

He smiled as he observed the color mount into her cheeks. It was this that furnished the excuse for the dispute in the afternoon. Daisy had objected to his letting Grace Brown call him by his diminutive, and that had been his defense. Under ordinary circumstances she would have been furious, but she wanted very much to go to Muriel's wedding, and unless she could catch that first train there would be no hope of reaching town in time.

"I am sorry that I startled you," she said sweetly. "I merely wanted to ask if there were any boatmen about."

"The boatmen have all gone home," he answered.

"I want to go up to town on the first train in the morning, and I want some one to take me across the lake. Aunt Mamie is stopping at the Regent."

"The boatmen have all gone home," he answered. "They give it up at 10 o'clock."

"I just remembered that tomorrow was the wedding day," explained Daisy. "I thought it was next Friday."

"That is too bad," he consoled. "I'm afraid there is no chance of getting a man this time of night. You see, they all live back in the woods."

"Then I suppose I must give up the idea," she sighed, "though I did so want to see the wedding."

"If your anxiety outweighs your prejudice against my objectionable self," he suggested, "I should be glad to take you across."

"I could not think of troubling you," she murmured, though she knew that he must realize that was why she had spoken.

To her surprise Ted shouldered the oars.

"I'm sorry," he said. "I'm not a bit tired. I'd be glad to take you across."

"Then why don't you?" she demanded. "You ought to know I didn't mean that."

"You never can tell what a woman means," was the sad response as he brought the boat alongside the dock and helped her in.

Daisy deemed no reply, but settled herself and her suitcase in the stern and sat silent. Ted cast off and with a few strong strokes was well away from the dock.

The lake was about four miles wide between the two hotels. On one side was the Regent, while on the south the Lake View towered on a cliff. The Lake View was on the shore topped by a bunch of the main line railroad that ran past the Regent, and those who wanted to catch the early trains had to make their way across the lake in boats, since the first train on the branch line was at 9:15.

With steady strokes Ted forced the boat forward through the clouds of heavy fog that rose from the water.

As the boat drew near the shore, the figures of the two hotels were detached masses rising above the mist.

Ted took a less poetic view of it. "Looks like a heavy fog," he suggested. "I hope we make the other side before it closes in."

"Of course we will," was Daisy's confident reply. But they had gone only two miles when the fog had surrounded them, and it was possible to see only a boat length ahead.

For more than an hour Ted rowed on without speaking, then he dropped the oars.

"You don't happen to hear any shore sounds, do you?" he asked quietly.

"Not yet," said Daisy. "Why?"

"I ought to be about a mile inland," he explained. "If we had held to our course."

"You mean that we are lost?" she asked tremulously.

"You cannot get very much lost on a lake four miles wide and ten long," he assured, "but I guess it is going to be some trouble making land."

"Not if you row straight ahead," she suggested. "That ought to be easy."

"If I had anything to steer by," he admitted, "but the trouble is I cannot see where I am going."

"You should carry a compass," she declared. "I thought all boats had to carry compasses. I thought it was the law."

"Not rowboats on a land locked lake," he corrected. "You are supposed to be able to tell where you are going."

"There's land!" she exclaimed, pointing ahead. "It's darker over there."

He glanced ahead, and it seemed to him, too, that there was a shadow ahead. Desperately he pulled for it, and presently the boat grated on the shivering bank. Ted sprang to the shore, drawing the boat up, and started to explore the beach. Presently he returned.

"This is the island," he said disgustedly. "I just ran across the fire some of the boys made this afternoon."

"Well," she smiled, "we at least know where we are. You can start from here and row right."

He pushed off the boat and started to "row right." For half an hour he labored, at the oars and then struck beach again only to find that they had again run aground on the only island in the lake. This time he had come up on the opposite side. He pushed off and beat over the oars again only to come to the same island.

Daisy, shivering and crying in the stern, broke down. Long ago Ted had insisted upon wrapping his coat about her, but this was scant protection against the searching cold.

Ted drew the boat well up on the beach, and presently there was a roaring fire blazing. In twenty minutes Daisy had forgotten her discomfort. In half an hour she was positively comfortable. Ted built up a back rest of boughs, and she dozed off at intervals, finally dropping into a deeper slumber.

It was some hours later that Ted gently roused her. "It's 5 o'clock," he said. "And there is plenty of light. The fog has lifted. We can make shore in time for you to catch the train."

"Do I look like a sight?" she demanded.

"As if you ever did," he laughed. "You look all right."

"I can sleep on the train," she said, "and I'll be all right by the time I reach town."

In less than an hour the boat drew up beside the Regent dock, and Ted handed her out and reached for the suitcase. Silently he followed her to the station and sat beside her on the platform.

"Don't you think," he said at last, "that since you are so fond of weddings you ought to have one yourself?"

"If you are still willing?" she smiled.

"Do you suppose I was rowing you around the lake all night for pure love of exercise?" he demanded.

"I'd rather think it was for love of me," she whispered.

"You win," declared Ted fervently, and under his breath he added: "And so do I. Bless that fog!"

Goethe's Orientalism.

Respecting Goethe's ideas of women much has been said, and mostly in Pharisaic strains. When I suggest that some light may perhaps be thrown on it by his Orientalism, let it not be said with a sneer, "Precisely, because woman is held in low esteem in the east."

I answer, "By no means; woman is not held in low esteem either in the east or in Goethe's scheme of life."

In Moslem hagiology there are four perfect women, but no perfect man. In Goethe's "Faust" the stormy destiny of humanity revolves round the pivot of Margaret, Helen, Woman. Would you describe the creator of Dorothea the simple, Dorothea the charming, Dorothea the self-possessed, Dorothea the unselfish, the modest, the true—in a word, Dorothea the womanly—as having a low idea of woman? The fact is, Goethe was, like a true artist, ever seeking an equilibrium in his ideals of love and woman, and never attained it. There is something satisfying in this realistic picture of the simple though noble and virtuous Dorothea, but there is a more ethereal, a more elusive figure—one more akin in power and grasp to the goddesses of heaven—attempts in the searchings and questionings (failures though they be) after female perfection in the fairy flights of "Faust"—Yusuf Ali in Contemporary Review.

All the Same to Him.

A servant not distinguished for his intelligence went to the postoffice and was given a letter for his mistress. On arriving at the door he saw that he had lost it, so ran back and explained what had happened to the clerk. "But what can I do?" said the clerk. Ted took a less poetic view of it. "Looks like a heavy fog," he suggested. "I hope we make the other side before it closes in."

"Of course we will," was Daisy's confident reply. But they had gone only two miles when the fog had surrounded them, and it was possible to see only a boat length ahead.

For more than an hour Ted rowed on without speaking, then he dropped the oars.

"You don't happen to hear any shore sounds, do you?" he asked quietly.

"Not yet," said Daisy. "Why?"

"I ought to be about a mile inland," he explained. "If we had held to our course."

"You mean that we are lost?" she asked tremulously.

"You cannot get very much lost on a lake four miles wide and ten long," he assured, "but I guess it is going to be some trouble making land."

"Not if you row straight ahead," she suggested. "That ought to be easy."

"If I had anything to steer by," he admitted, "but the trouble is I cannot see where I am going."

"You should carry a compass," she declared. "I thought all boats had to carry compasses. I thought it was the law."

"Not rowboats on a land locked lake," he corrected. "You are supposed to be able to tell where you are going."

MRS. STEWART BRICE

Will be Well Remembered
by Many Lima Residents
Who Knew Her.

WIFE OF H. MOUNT.

The Couple Resided for
Many Years in Montpelier, Indiana.

Though unknown at the time the marriage was announced in New York last week, because of failure on the part of dispatches to identify the bride, Mrs. Stewart M. Brice will be remembered by a large number of Lima people.

The bride is well remembered by the writer, and for a number of years resided in Montpelier, Indiana, where her husband, Harry C. Mount, with Bruce Cloud, were engaged in oil development in the Keystone field, the couple residing for a time at the Columbia Hotel and later took a cottage, residing in Montpelier several years, when they removed to Muncie, and the husband dropped a comfortable fortune in the Indiana oil fields, which he afterwards partially regained, but domestic troubles followed, the wife returning to the home of her mother in Indianapolis, where she afterwards secured a divorce.

Mrs. Mount is a beautiful woman, about 35 years of age, of the blonde type and has a son fifteen years old. Brice first knew Mrs. Mount before her marriage to the oil man, as evidenced in the statement of Mrs. Kelsey, at whose home in New York, the marriage occurred.

"He would have been a husband eighteen years ago," remarked Mrs. Kelsey, "but he wouldn't remain in Indianapolis. He first met Mrs. Mount there when she was a young girl and he was attending Harvard. They became engaged, but the engagement was broken because he had to return to school. When he finally left he began traveling the world."

THE NEW GENERATORS

Provide Electric Power at a
Cost of One Half Cent

Saving on Cost of Pumping
Water Figures \$6,800
Per Year.

The actual benefit of the Board of Public Service's contentions and promises last February have begun to show up in a startling manner. It will be remembered what a strife there was last February to install an electric plant at the main water works station for the purpose of supplying electrical current to run the two large pumps on the bank of the new storage reservoir, and it only after a continual round of discussion and pressure that the council could be made to see the necessity for such a plant. However, the Board was authorized to install the electrical machinery, and yesterday was the first full 24 hours they have had water enough to keep the pumps moving at a full capacity since the machinery was installed, and a comparison with what was paid the local electric light company with the cost to the present Board for a 24-hour run, is now accessible.

From three to five cents per kilowatt is what the electric light company made the Board pay for electric power and yesterday the Board furnished its own power with the newly installed machinery for EIGHT-TENTHS OF A CENT PER KILOWATT.

It has cost the city \$105.00 for electric current from the light company, at three cents per kilowatt, for a 25-hour run. The total cost for yesterday's run was a few cents less than \$20, including fuel and labor. The board estimates that the pumps at the upper reservoir will be operated about 80 days a year and at this same ratio of saving this will amount to a total of \$6,800 per year. When the plant at the main station is completed and accepted, it is guaranteed to furnish power at one-half of one cent per kilowatt which is just four and one-half cents cheaper than Mr. Bendure of the Electric Light Co., furnished power to the former board of public service. Less than three years of this saving will easily wipe out the total cost of the new board's electric power plant. The pumps were running their full capacity and were found to be only about one-third of a load for the capacity of the generators.
